THE ESSENCIA SYSTEM

The premium Essencia System was invented for craft distillers to produce finer, more authentic spirit at home.

1. FERMENT **ESSENCIA ESSENCIA SUPER 6 ULTRA PURE YEAST** (*The cleanest-fermenting yeast*). A fully-stackable distiller's yeast used to produce premium, odour-free alcohol. It thrives in a wide temperature range of 15-35°C. With just 6kg of sugar, it generates a wash with 13-17% ABV within 5-7 days.

2. DISTILL **ESSENCIA EXPRESS COPPER REFLUX AND POT CONDENSER KIT** (*Fastest dual-condenser*). Introducing the new pro-grade Essencia Express Reflux and Pot Condenser—faster, more versatile, and easier to use than any other condenser on the market. This advanced unit can reflux a 25L wash to 94% pure alcohol in under 2.5 hours with the 3kW boiler, achieving an impressive 94% ABV. It easily converts into a copper pot still without needing separate parts for stripping and spirit runs.

3. FILTER **ESSENCIA CARBON FILTER SYSTEM** (*For the cleanest spirit*). Fast-age for the smoothest spirit without messy carbon. This system is a multi-stage filtration unit with large ceramic and peat carbon cartridges. The large Carbon Filter Cartridge treats 45L of 40% ethanol, removing congeners like acetaldehyde and methanol. The large Ceramic/carbon Filter Cartridge treats 250L (50 batches), removing bacteria, cysts, chlorine, pesticides, and metals.

4. FLAVOUR AND AGE **ESSENCIA PREMIUM FLAVOURS** (*Genuine spirit flavours*). Essencia Essences (The most authentic flavours). Essencia's authentic essences taste better because they are created using only the highest quality distilled flavour essences from around the world.

ESSENCIA BARREL CHUNKS (*Freshest wet barrel chunks*). Essencia Barrel Chunks are from freshly-emptied spirit barrels, enabling you produce the most authentic distiller's spirit at home. Made with genuine deeply-charred spirit-soaked American oak barrels that have aged spirit for 4-10 years. These chunks enhance rapid flavour-infusion due to the unique Essencia process which opens the spirit-soaked oak and retains the charred barrel interior.

essencia

THE QUALITY LEADER

From the purest yeast to the fastest condensers; the cleanest filters to the most authentic essences. Taste the Essencia difference for yourself.
